David and I had a conference call with Susan regarding our position on the TASC awhile back. She was very much on board with us working through and supporting the State's CI efforts and communication strategy for the site. We discussed the possibility of offering TASC after the State had established its CI efforts and she agreed with the approach (of funneling technical assistance through whatever is established depending on need).

Loren and Dan - See below. Rick B of DTSC is not comfortable with our position on TASC. I am trying to organize a quick call with him and Susan C today sometime. I will let you know the time we land on so others can participate. I will try to explain that we want TASC to be compatible with the State's CI program.

Yes, we do need to talk. I'm concerned about the position you're putting us in.

Sent from my Blackberry.

Yes.

FYI, I just sent Susan Callery an email requesting that her and I have 15-30 minute call tomorrow. My hope is that EPA and DTSC can get on the same page regarding the role of TASC under DTSC upcoming CI Program at SSFL so we can give some good answers to the SSFL CAG folks on Wednesday.

Want to join Susan and I for the pre-call tomorrow ????

REMINDER: SSFL CAG meeting with EPA regarding TASC technical assistance requests 7/28 11am

Please join us for a meeting with EPA on 7/28 (this Wednesday) at

11:00am to discuss this communities' multiple TASC technical assistance requests denied by EPA. We look forward to a productive

discussion about the needs and questions that the surrounding communities have.

I'll be sending out conference call access links and call-in #s shortly under separate cover.

Thanks,

Christina
